RE: New York State ELA and New York State Math Test Scores

The percentages of 7<sup>th</sup> and 8<sup>th</sup> grade Bishop Grimes students scoring at level 3 or 4 on the NYS ELA and Math tests for the 2008 – 2009 academic year are listed below. Congratulations to our students and to all who contributed to their academic success and the attainment of these impressive achievements!

### **NYS ELA Scores:**

**97% of 7<sup>th</sup> grade students achieved scores of level 3 or 4**  
**88% of 8<sup>th</sup> grade students achieved scores of level 3 or 4**

### **NYS Math Scores:**

**89% of 7<sup>th</sup> grade students achieved scores of level 3 or 4**  
**88% of 8<sup>th</sup> grade students achieved scores of level 3 or 4**

A level 3 score indicates that the student is meeting learning standards. A level 4 score indicates that the student is meeting learning standards with distinction. Individual reports of each student's performance on these tests will be sent home in August or September.
